OT-200

OT-200

The new dimension of Ordering

The functionality and stylish appearance of the OT-200 is primarily designed to the hospitality environment. It has a compact size, lightweight design and extraordinary durability.

Orders can be transmitted directly from the OT-200 to the bar or kitchen via WiFi i.e. employees work more efficient instead of walking forth and back.

The OT-200 is a cost effective handheld terminal, which will enhance any hospitality solution or can be used in many other business environments as well.
