

MobiControl v5

Manage, Support & Secure Your Mobile Field-Force

Take Control of Your Mobile Assets

Enterprises in today's global marketplace are taking advantage of wireless mobile technology to manage their supply-chain and provide real-time business intelligence to key decision makers. The challenge is to effectively manage, support and secure evolving mobile field forces across diverse network topologies.

Whether you are using consumer based devices for push email or ruggedized devices in the field, MobiControl is the solution of choice for rapid and reliable performance over any network for any size of deployment.

MobiControl - The Right Choice!

- Comprehensive all-in-one solution
- Award Winning Technology
- Advanced Security Features
- Extensible Architecture (Ten to tens of thousands of devices)
- Most competitively priced solution on the market

Download a fully functional evaluation version of MobiControl today! 

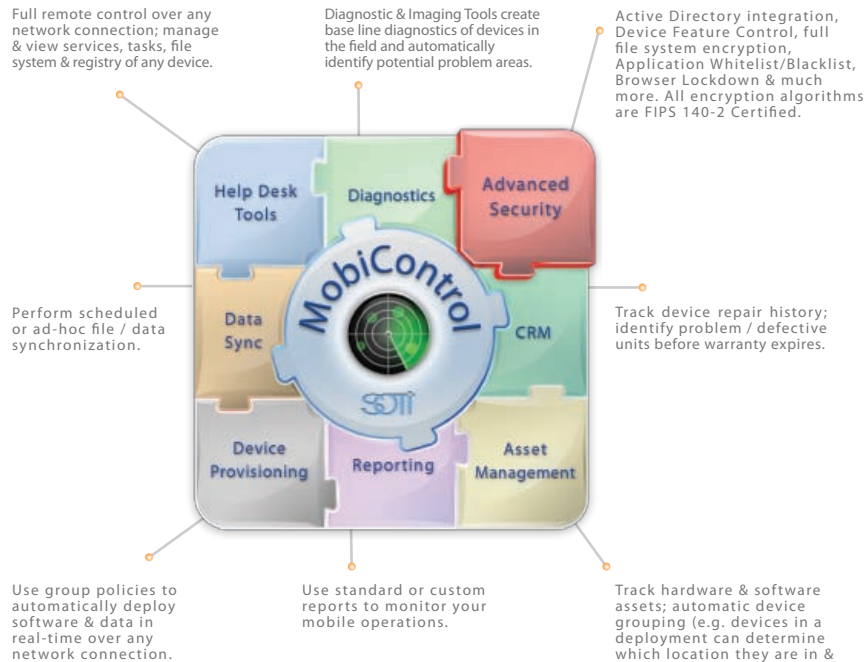

"Had it not been for MobiControl, we would never have been able to grow our mobile business to the size it is today. While extremely powerful, it is also a simple and practical tool that has been fundamental to our success."

- Nigel Fawkes, AutoRestore, UK.
Field Support Analyst

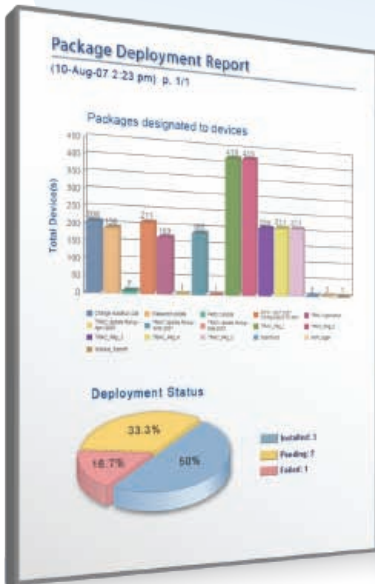

"The cost associated with Device Management through SOTI is a fraction of the cost of other solutions, while providing twice the feature set. What a pleasant surprise."

- Ben F. Marshall, KCI, USA.
Chief Architect

MobiControl Completes the Mobility Puzzle

Fastest Remote Control over any Network!

MobiControl v5

Helping You Meet Your Business Goals

Reduced Cost & Immediate ROI

MobiControl is built on award-winning technology and is the most cost effective solution on the market for Mobile Device Management, Security and Support.

Increased Productivity

Minimized downtime, shortened training curves, increased user adoption, reduced support and labor costs and simplified device management.

Reduced Security Risk

AES-256 full device storage encryption using FIPS 140-2 certified algorithms to protect your sensitive data, Active Directory based user authentication, Application Run Control, Device Lockdown (Kiosk Mode), Hardware Feature Control & much more. Advanced security policies provide administrators with granular control over how mobile devices are used and how data is accessed.

Built on Open Standards

Built using open industry standards with no need for proprietary hardware or software.

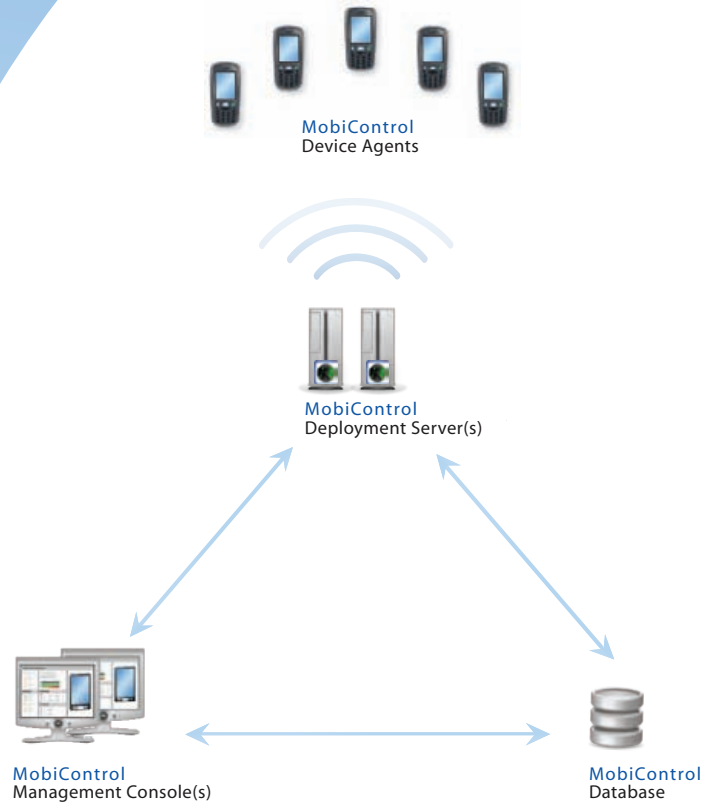

Protect Your Investment

MobiControl supports all Windows based mobile and desktop computing devices that operate over any wired or wireless network (e.g. WiFi, GPRS, CDMA, Edge).

System Requirements

Manage any mobile device or computer running any Microsoft mobile or desktop Operating System.

Compatible with all devices/computers running Microsoft Windows CE, Pocket PC, Windows Mobile, Smartphone, Windows XP, or Windows 2000 Operating Systems.

Manage Mobile Deployments Over Any Network Topology

- ✓ WiFi or other wireless network
- ✓ External network outside corporate firewall
- ✓ Batch mode/cradle devices

About SOTI Inc.

With more than 60,000 customers in over 75 countries, SOTI Inc. is the world's leading provider of Device Management & Security (DMSEC) solutions for the Enterprise and Consumer spaces.

SOTI's best-selling DMSEC solution -- MobiControl -- enables organizations of all sizes to deploy, manage, secure and support their mobile operations, reducing their Total Cost of Ownership.

SOTI's other best-selling application -- Pocket Controller Pro-- is the must-have consumer utility to enhance user productivity on any Windows based device.
